

# UNDERSTANDING YOUR COMMUNITY SOLAR BILL

For a 2-bill option, you will receive 1 bill from your utility (electricity delivery) and 1 bill from Nautilus Solar (Solar Credits earned minus your discount).

## YOUR 2-BILL TIMING

Often there is a lag of one or two months between when the **Solar Credits are earned** in a billing cycle and when the **Solar Credits are invoiced** by Nautilus. This lag is because the Solar Credits are transferred between your local utility company and Nautilus as part of the community solar program.

	BILLING PERIOD 3/24/2024 - 4/22/2024	INVOICE #1 4/23/2024 - 5/20/2024	INVOICE #2 4/25/2024 - 5/6/2024
● USAGE PERIOD	Total kWh used		
● UTILITY INVOICE #1	Supply + Delivery costs + Solar Credits earned (in kWh)		
● NAUTILUS INVOICE #2	Solar Credits billed - 10% Discount (in \$)		

**NOTE:** The billing period on your utility bill and the Nautilus Solar bill may vary slightly. The utility bill is based on the read dates of the electricity used. The Nautilus Solar bill is based on the electricity generation period of the solar farm.

Your Impact	This Month's Solar Credits	Clean Impact CO2 Equivalent
Your subscription to clean solar energy is reducing harmful carbon (CO2) gas emissions.	462.96 kWh	7,697 pounds of coal emissions

If you choose to pay by Credit Card, you will be charged a convenience fee of 2.9% unless prohibited by local law.

## DEFINITIONS

- ☑ **Supply:** The cost of supplying electricity for your usage.
- ☑ **Delivery:** The cost of delivering electricity to your home through the power lines.
- ☑ **Solar Credits:** Financial incentives created as part of community solar programs to encourage people to use clean energy and lower their carbon footprint.

## HOW DO SOLAR CREDITS WORK?

Here's how solar credits work for community solar:

You subscribe to a Nautilus Community Solar farm in your area.

Nautilus will calculate your share of the total energy your farm is expected to produce over the next 12 months.

Based on your share, you earn a solar energy credit for electricity that your community solar farm produces.

These solar credits are then calculated into a dollar value which appears on your monthly Nautilus bills minus a discount of 10%.

It's important to note that the solar credits you earn are based on your share of the energy **produced** not the total energy **used** at home. This does not affect the amount of electricity delivered to your home. You will always receive the right amount you need.

## HOW IS MY SHARE OF THE COMMUNITY SOLAR FARM CALCULATED?

Your share or "allocation" is calculated by:

$$\frac{\text{YOUR 12-MONTH HISTORICAL USAGE}}{\text{AVG ANNUAL COMMUNITY SOLAR FARM PRODUCTION}} = \text{YOUR ALLOCATION \%}$$

From here, we can calculate your monthly solar credits:

$$\text{YOUR ALLOCATION \%} \times \text{TOTAL ENERGY PRODUCED THAT MONTH} = \text{YOUR SOLAR CREDITS}$$
